### Family and Childcare Routines

By learning about what your child and family commonly does, we can get an idea of what goes well for you, what you find challenging, and how we might help. Routine is just another way of describing what you and your child tend to do throughout most days. So we can better understand each routine, we will talk about what you like about your child's participation, what everyone else does during the routine, what type of help your child needs, and how happy you are with the routine. *Some of the routines that families share include waking, getting ready to go out, meals, playtime, hanging out at home, childcare routines, shopping, chores, visiting others, bath time, bed/nap time, and car trips.*
